

E-Commerce. Payments. Solved.

”

We have a product that not only delivers the ordering, sourcing, budgeting, invoicing, spend control and payments features that are expected by our customers....

it is also so easy to use that it has actually become a selling tool for us.

-- Don Flewell,
Director of Marketing
Pollock Paper

Leveraging new tools to redefine your channels and serve customers in new ways can seem out of reach for many B2B companies.

With CDI Technology, large scale ERP investments, complex configurations and varied payment options become a competitive advantage.

If you are behind your competition in reaching e-commerce excellence, you are missing out on the revenue revolution that online self-service can provide.

CDI's real-time integrated ERP e-commerce and payments solutions deliver digital transformation that can truly redefine your channel excellence and efficiency.

Let CDI Technology help you imagine, design, and implement opportunities to extend the value of SAP.
